THE BROOM

"You Shall Know the Truth"

War is the sum-total of all crimes. Left to themselves no people would make war. War-makers are heartless, cunning, greedy All wars are for booty. The U. S. A. engaged in wars for the booty of the Allies and the destruction of free government by the people, of the people, for the people. Wars bring slavery and conscription, debts and poverty for unborn generations even.

Blending Man-Made Rules with Divine Order

By C. LEON de ARYAN

The question before us is: "Can a God-given, an unalienable RIGHT, guaranteed by the U. S. Constitution, be suspended?"

There are two sides to this question.

As far as the government of the U. S. A. is concerned, any RIGHT can be violated with impunity, Constitution or no Constitution, because human agencies administer and "protect" the Constitution. Though every office holder takes a "solemn oath" to uphold the Constitution, to 99.9% of them an oath is a mere formality, while Jews have the loop hole of the "Kol Nidrei" through which they may, privately, or in "solemn Congregation" vitiate the "oath of allegiance" by pleading EXPEDIENCY, or duress.

Human agencies, politically corporated as states and governments, are no stronger than their weakest links. If burocrats and the judiciary conspire to ignore the law, there is **no legal redress for the victim.** This is being done daily, especially in times of "great emergencies" and the greatest of them is WAR. Thus for the purpose of vitiating constitutional guarantees **wars are being induced by** the exploiters and then the **people can be plundered and enslaved** under the EXIGENCY of "present and **imminent** danger".

International treaties have legal status equal to the U. S. Constitution, yet the Geneva Convention on SLAVE LABOR is completely ignored by the "Allied" signatories. And so we see that human agencies cannot be trusted to live up to their "solemn" obligations. Oaths are worth less than the paper that prescribes them.

DIVINE RULE ALWAYS PREVAILS

Jesus Christ taught us the doctrine of Divine Rule. He admonished us persistently to first of all discover the operations of the divine government, which is **infallibly true and effective.** "Seek ye FIRST the Kingdom of Heaven and its RIGHTEOUSNESS and all these things will be added."

In Jesus we find the **blending of human observance in matters of the Will of God "as it is in Heaven".** But Jesus is not a mysterious EXCEPTION to the rule, on the contrary, he came to show us the PATH we must tread by "taking up our cross" and following in his footsteps.

Divine Rule and Order is the law of Righteousness. That is what determines Right from Wrong, not human agencies that are corruptible. Hence, he who follows DIVINE RULE cannot be wrong even from the legal angle of human agencies, **because every office holder makes a "solemn" promise to administer his office RELIGIOUSLY, "so help me God!"** Now certainly, is there one so stupid to expect God to help him **contrary to Divine Rule?!** Hence, that which is divinely true supersedes man-made "law", even legally.

As a matter of practice it is interesting to find out how this operates. Is it a fact that IF YOU OBEY GOD **you are protected against vindictiveness by human authorities WHO HATE GOD?** or who ignore God's Rule? Naturally, the basis is obedience to God **all the way.**

Cursory observation would report that "Nero rules Rome" while God is so "far away in His Heaven", that, therefore, it was better to obey Nero.

Such conclusions hold only in the minds of **unscientific people.** Those who THINK realize that, after all, this Universe is being maintained by DIVINE RULE, in the precision of physical law, as well as in the justice, ABSOLUTE justice of moral law, **or ELSE God's Rule is not effective.** Conversely, the POWER of God must be such that if you stand upon your UNALIENABLE Right, you are immune to all human reprisals. And that is the main theme of **all religious Science.** God RULES supreme, otherwise **WHY SEEK FIRST HIS RULE,** why seek to understand the workings of His Rule, before being concerned with things of this world? And by understanding the ORDER of His governing power you become endowed with the POWER that protects you against ALL evil, if you follow the Rule **all the way.**

Religion becomes a scientific problem like any other scientific problem, governed by scientific law. And then it follows that **whenever you are persecuted and suffer, you OPENED the way** for it, because as long as you stood WITHIN divine Law you were immune to temporary evil. And persecution is an evil.

ARTHUR L. (THE VOICE) BELL OPPOSES WAR

The preceding observations are common in popular "Christian Science". Of course, they were not presented by Mary Baker Eddy for the **first time in history.** They are as old as THOUGHT itself. But Arthur L. Bell, "the Voice of Mankind United" against War, happened to have developed along C. S. lines, hence we give credit to it in this instance.

For years Bell and his group of co-workers against the evils of War and human exploitation, slavery, poverty and stupidity, have carried the brunt of recrimination by organized Plutocracy and Mob-rule; have been the butt of illegal persecution in our courts, since the murderous Sanhedrin controls the political and economic structure of society "everywhere in the world". For over a year I have minutely observed the proceedings in court against Bell.

At present Referee Benno M. Brink, in bankruptcy court, proposes to wind up the estate of Bell's "Church" as fast as he can, but reserves the "right" to prosecute him and his wife, if possible, on criminal charges of having appropriated funds belonging to the "Church". My own observations have convinced me that Bell never misappropriated even one dollar entrusted to his care. That the funds claimed by Brink to belong to the "Church" were donated to Bell as a **private individual** for his own protection and the protection of his work.

Here comes now a very peculiar question for the courts to pass upon. When is a **"private trust" not amenable to supervision** under the statutes relating to trust officers? Thereon hinges the whole question of whether Bell is a "crook" or not, legally speaking.

His followers **did trust Bell;** his followers did **entrust funds to his care;** but they stipulated that he should be the ONLY judge of their use. The reason for it was the previous experiences where corruptible public agencies had been persecuting Bell and followers **because they oppose WAR.** Hence, when it was foreseen that such persecution would increase, his followers decided to GIVE him a fund for the protection of his own person, **and, naturally, they TRUSTED him to use the fund to protect his work and protect THEM, too,** by making it UNAVAILABLE to the corruptible authorities which worship War above God.

And now Referee Brink rules that this special fund must be accounted for and its residue turned over to Brink and the Trustees of the bankrupt estate for administration **and Dissipation** to completely **DESTROY** the effective power of the Congregation as a Church.

Legally and in every other way Brink is wrong. But holding the power of office, of course, he can continue to harrass Bell and his followers. Yet the question persists: "If these people work for PEACE why **does God permit their PERSECUTION?"**

And that is really what is of paramount value. Everything else passes. Brink will die and go to his reward with Olney III, where they will join FDR, Hitler and the rest of the war makers. Riches accumulate and pass away, but to KNOW the Rule of God, THAT is of paramount worth.

And the explanation is self-evident. Bell gathered around him a group of apprentices who want to **represent the RULE of God in Earth.** They are imperfect people with all the shortcomings of mind and flesh. As they dedicate themselves to God's Service, they are taken in hand by the INVISIBLE RULERS of the universe and **by experience are TAUGHT** what is RIGHT and what is wrong. Same as if they were trying to fly and produce airplanes. Everytime they crash, naturally, they did something wrong. All they have to do is look inside their own hearts, study the NATURE of divine LOVE and Order and discover where they made their mistake. In fact, they are privileged people because as long as they are consecrated to Divine Service not one single effort is wasted. They LEARN by the results, as in aviation.

He that endures to the end shall triumph.

Un-American Inquisition Committees

By C. LEON de ARYAN

There are people everywhere who superstitiously believe that stupidity and crime can be cured by passing a law "with teeth in it". They propose to give inquisitorial, unconstitutional powers to "investigating" committees, which is nothing short of establishing star-chamber courts with Gestapo powers to persecute and violate the U. S. Constitution in witch-hunt orgies.

There is no possibility of stamping out Communism and Fascism in America as long as we support Toryism and feudal titles of landlordism. Communism thrives only where large masses of people are pauperized and oppressed. Landlordism that collects "unearned increment", and becomes the Tory-Usurer controlling factor of society, is the system productive of both Fascism and Communism. Now the Tory-Sanhedrin rabble-rouses the large middle-class America by pointing to Communists as "the menace", as the "subversive" elements. Truth is, though, the Tory-Sanhedrin is THE menace and subversive element, the destroyer of our Republic and the promoter of world strife and world wars.

Un-American committees, whether headed by California State Senator Tenney, or U. S. Senator Thomas ARE un-American. THEY are the subverters of American constitutional guarantees. They mislead the people thru rabble-rousing investigations **by pointing to results,** in some cases, IN ORDER to **hide the causes.**

The cause is the Tory-Sanhedrin domination thru the landlord-usury system. The Communists and Fascists are the result of it. Do these investigators ever investigate Bernard Baruch, John D. Rockefeller, Jr.? Why not? Investigate the Chase National Bank to find how it controls the world!

It is being proposed to make it a felony to refuse to answer questions of the "investigators", while now it is merely a misdemeanor. That means, the un-American committee is to be given **dictatorial powers to violate one's privacy without due process of law,** regardless of whether you ARE a criminal or not.

Beware of these un-American inquisitors who propose to usurp dictatorial powers in violation of the Bill of Rights. I would not give two cents for the "integrity" of Tenney's or Thomas' un-American committee. Both are Baruch's stooges.

Whoever proposes to "protect" the American way of life and form of government, by **infringing** on the Bill of Rights and the guarantees of due process of law, is THE enemy of the U. S. A.

Stalin, the Tory, Carries Out Czar's Will

WASHINGTON, — A remarkable discovery has been made by comparing the will of Peter the Great, Czar of all Russians, written before 1725, with Stalin's foreign policy.

The will reads in part:

"In the name of the most holy and indivisible trinity, we, Peter I, Emperor and autocrat of all the Russias, to all our descendants to the throne and government of the Russian nation. The All-Powerful, to Whom we owe our existence, makes us regard the Russian people, which is constantly guided by His light and sustained by His divine support, as called in the future to be the dominant race in Europe. This idea strikes us from the fact that European nations have for the greater part arrived at a state of old age allied to decay, or at all events this approaches them with rapid strides. From this it results that they ought to be easily and assuredly conquered by a young and new people when the latter shall have attained all their force and power.

"It is just for this reason that I leave the following instructions, and I recommend them to the attention and constant observation of my descendants.

"To keep Russia in a state for continual war, to hold the soldier ever ready, and never give him rest except for the purpose of recovering the finances of the country and the improvement of the army. To choose the most favourable moment for attack, to follow up peace by war, and war by peace, in the interest, aggrandizement, and growing prosperity of Russia.

"To entice by every means possible from the cleverest people of Europe officers during war and savants during peace, in order to improve the Russians at the expense of other nations without losing her own advantages.

"To take part on every occasion in the affairs and discussions of Europe, whatever they may be, and especially in those concerning Germany, who as our most intimate neighbour interests us more directly.

"To divide Poland, and keep up in that kingdom a constant disorder and continual jealousy, gain over the other powers at the price of gold, influence the Polish assemblies and corrupt them, so as to obtain an interest in the election of kings, to name partisans and protect them as an excuse for the entry of Muscovite troops there, to remain until the day arrives for a permanent occupation. If the neighbouring powers put forth difficulties, tranquilize them for a moment by dividing the country until we can retake as much of it as we have given up to them.

"To take as much as we can of Sweden, and induce her to attack us, in order that we may have the pretext for subjugating her. For this purpose we must isolate Denmark from Sweden, and favour the rivalry between these countries.

"If . . . each of these powers should refuse the project of Russia, we must know how to excite them to quarrel one with the other, and so act that they may enfeeble themselves through each other."

FDR and Rockefeller Double-Crossed Zionists

WASHINGTON,—The late President Roosevelt in 1941 instructed Britain to use part of a $400,000,000 loan from the United States to subsidize Ibn Saud, James Moffet, who was an official of the Cal-Arabian Oil Company at that time, testified at a Senate War Investigating Committee hearing.

Moffet declared that the company, owned jointly by the Texas Oil Company and Standard Oil of California, had paid $6,800,000 in advance royalties for Arabian oil rights to Ibn Saud in 1941. Since part of this money was to **finance a campaign against the Jews in Palestine, and the company feared an adverse effect on its business among the Jews in America,** it appealed to the government to take over financing of Saudi Arabia.

THRU BRITAIN

According to Moffet, President Roosevelt said the government could not directly advance money to Ibn Saud, but that since the Middle East was Britain's sphere, **he directed the Reconstruction Finance Corporation, which was** then making a $430,000,000 loan to Britain, to stipulate that part of the sum be **used to pay a subsidy to Ibn Saud.**

BUILDERS BRAND PUBLIC HOUSING "COMMUNISTIC"

LOS ANGELES,—Members of the Building Contractors Association of California branded public housing legislation pending in the state legislature as "Communistic in theory and practice."

In a message to Gov. Earl Warren objecting to the 24 public housing bills now before the legislature, T. J. Lords, president of the builders' group, said:

"Public housing will not build more veterans' homes—it will build less. And it will not build them for less money but will build them for more."

Federal City

"Crackpot" Ives, Socialist Lillienthal, "Lefty" Wallace and "Moscow" Marshall Make the Headlines

By WASHINGTON ADAMS

WASHINGTON, April 16 (Special)—My readers may recall the shouts of vain protest I raised in January to prevent the appointment to the Senate Labor Committee of Irving Ives, Governor Dewey's "Mortimer Snerd" and stooge of New York minorities.

The brilliant Senator Taft now sees, to his sorrow, that the predictions I made regarding this little stooge are proving 100% correct.

I said Ives wanted to get on the committee to push his fanatic Anti-White, Anti-Christian and un-American "FEPC" bill, and also to hamstring the "G. O. P." majority in its efforts to alter the vicious Wagner Labor dictatorship. Exactly this has happened.

Ives does not represent either the Republican people or the Legislature of the State of New York. He represents the N. Y. Dewey camarilla.

He has come out as a full-fledged **"New Dealer".** He joined the radical socialist New Deal Republicans Morse of Oregon and Aiken of Vermont to defeat and humiliate the Republican leader and able head of the Labor Committee, Senator Taft, — and joined with the Democratic Newdealers on the Committee to reject the party's bill to curb vicious practices of the New Deal Labor despotism, now riding roughshod over the people.

The committee vote was 7 to 6 to reject the Republican bill. If these RENEGADES and mavericks had stuck to their party, the G. O. P. bill would have triumphed in the committee 9 to 4.

The Republican House is showing more party loyalty, patriotism and brains than is the Senate.

If the Republican Legislature elected the governor and senators, neither Dewey nor Ives would be in office.

"SOCIALIST" LILLIENTHAL

Of all the survivors of Roosevelt's New Deal socialist crowd, David Lillienthal of the T. V. A. is the farthest to the left.

The last election was a protest against left-wing socialism.

Is the two-party system in this country dead or dying? The Republican Senate should have turned down Lillienthal by a two-thirds majority. As it was, although Senator Taft was able to rally a majority of the Republican Senators to vote for the Socialist's rejection to the post of head of the Atomic Commission, there were enough renegade pinheads in the G. O. P. to put "Lilly" across by a thumping majority.

Some two-fifths of the Republicans, headed by the apostate Vandenberg, went over to the New Deal socialist camp, and voted for Lillienthal.

Senator Taft's speech against confirmation was a masterpiece. He not only proved how unfit Lillienthal was for the job, but he pointed out that the Senate had made the dangerous mistake, in creating the post, of giving the commission and its chairman **practically autocratic and dictatorial powers** . . . "to acquire such materials, property . . . construct such buildings and facilities . . . and provide for the health . . . and welfare . . . of personnel employed by the Commission as it may deem necessary." (Sec. 12, paragraph 5).

Because the law was radical was all the more reason why no radical should be put in control of it.

* * * *

"LEFTY" WALLACE, in Britain, cries his heart out that the Truman Doctrine means war with the Soviet despotism.

But he never raised a chirp in protest at Roosevelt's war-mongering from 1938 to 1941, nor at FDR's law-violations in selling or giving our 50 naval destroyers to Britain.

Incidentally, a radio poll by Mutual's WOR (N.Y.) showed a 6 to 1 opposition to Truman's proposal to send 400 millions of dollars to Greece and Turkey. Against—3,147; for—457.

A studio panel voted 11 to 1 against the Truman plan.

* * * *

SECRETARY MARSHALL, doubtless at the suggestion of the Truman Administration, made an amazing offer to the "Big Four", or especially to Moscow: that **Germany be totally DISARMED FOR FORTY YEARS!**

This is one of the most astonishing propositions in world history, considering that Truman has decided to steal the Republican's thunder —of opposition to Communism and Soviet Expansion.

For, if Germany is made totally helpless, it will be an OPEN INVITATION TO RUSSIA'S ARMIES TO MARCH IN AND OCCUPY THE COUNTRY, and continue right on to AND ACROSS the English channel!

Polls of opinion showing Mr. Truman's increasing popularity with the morons confirm what I have frequently written during the past several years, namely:

THAT THE NEED OF AN UNITED, FIGHTING, OPPOSITION PARTY—to expose and oppose the New Deal's idiocies, extravagance and economic insanity at home, and to present an **American foreign policy abroad,** based upon justice and Christian principles—is more urgent today than ever before in our history!

* * * *

TRUMAN wants "prices reduced by business". Well, his party's inflation and "price boosting" policies are responsible for the present high prices.

The New Deal is still spending hundreds of millions of taxpayers' dollars to buy and destroy or divert various articles of food, such as potatoes and wheat, in order to hold up prices thereon.

PRICES are never the cause of depression, but are an effect of every depression and every inflation, low and high respectively.

HIGH WAGES are never the CAUSE, but are the EFFECT of prosperity.

With the sole exception of famines, pestilences, fires, floods and war's devastation, EVERY DEPRESSION has always been a MONEY FAMINE.

In America we normally use private bank debts for money, and when panic forces liquidation of such debts, the money to do normal business ceases—no longer exists; there is little money to meet payrolls and do business, and depression results.

At present we are using government (war bond) debts for money, and unless and until the war bonds decrease in value, we shall have no extensive depression, although we may have a "recession".

I could write a book on this subject.

Dear Mr. de Aryan:

I am planning to write an article for this magazine about Rev. L. M. Birkhead, of Friends of Democracy, and while doing preliminary research on the subject have noticed that you have been mentioned from time to time—not always flatteringly—in the publications of his organization. I want to write as objective a characterization as possible of Dr. Birkhead, and I am therefore anxious to obtain as many opinions of him as possible from people who have been prominently involved in his professional activities. I should be most grateful to you if you could take a few minutes off to drop me a line stating your estimate of Dr. Birkhead and of Friends of Democracy.

Very truly yours,
E. J. KAHN, JR.

* * * *

Dear Mr. E. J. Kahn, Jr.:

Being unfamiliar with THE NEW YORKER I am wondering where you have been all this time. Don't you know the reputation I am "enjoying" in Jew York?

Albert E. Kahn wrote quite a smear in THE HOUR and other "works" of his, so I am wondering what your game is. Crawling to cross, now that the tide is swinging against the Communists? Climbing on the bandwagon and wedging yourself into the driver's seat to play safe and innocent?

Why such a sudden disavowal of Derounian and Birkhead?

Or are you one of Rabbi Berger's congregation of anti-Zionist America Firsters? I suppose Jew York will all join Berger's congregation now and then repeat "Kol Nidrei" to remain what they are, anyway.

Birkhead and his Friends of Democracy never disturbed my tranquility.

What's the game?

Very truly yours,
C. LEON de ARYAN.

Dear Kosti:

Alma wants to know if you would care to summarize the Joan case and tell more explicitly what the breaking of the Geneva Convention means—she knows nothing of that set-up—but wants to get some friends interested in Joan to see what she can do for her.

Love, HELEN.

* * * *

Dear Helen:

Joan McBride is a lovely, young and impetuous, Berlin-born blonde, who in many respects has qualities exhibited by Tallulah Bankhead and also a strong resemblance to Elenor Yorke. She is irrespressible. Her second husband, James McBride, decided to free a German prisoner of war, held at Camp Haan, in southern California, who is an artist with water colors, that the two may go in business together. The POW, Rudolph Soelch, did not want to separate from his buddies who were being shipped as slave laborers to Russia and France, but finally Jim prevailed. Joan knew nothing about it.

Joan and Jim had been wrongfully indicted and railroaded in Sacramento, California, during the war, as members of an alleged Subversive Organization, "Friends of Progress", together with Ellis O. Jones, Robert Noble and others. They were incarcerated for almost two years when the California Appellate Court freed them, and reversed the verdict.

Joan and Jim are temperamentally incompatible. Both are irrepressible in their impetuity when they think a thing is RIGHT. But Joan acts more sensibly and with a greater regard for dutiful responsibility than Jim, so that it became impossible for them to live in harmony. She served divorce papers on him and they decided to leave Los Angeles together in their car, drive to Chicago and Detroit, where Joan's German-born relatives reside, while Jim was to inherit the car and go on to his mother in Pennsylvania. After leaving Los Angeles, to Joan's greatest surprise, the POW was picked up on the highway in Riverside county, changed into old clothes of Jim's and the three drove to Chicago and Detroit together. During that time it became evident that Jim and the POW could not possibly fit in as partners because of Jim's wild notions and ideologies, while the POW was an orderly-minded German, a gentleman. There were physical battles between Jim and the POW, and finally Jim departed to his mother in jealous rage because Joan sided in with the POW against him.

The FBI got wind thru the unbridled talk of Jim and arrested the POW after he had called at Joan's apartment in Detroit. While he had a room of his own, both Joan and he being **conventional Lutheran raised, to whom marital relations were sacred,** Joan could not get a SINGLE apartment in Detroit, so she had to register as Mr. and Mrs. to even have a place. This was held against her in court. She was charged with "hiding" the POW, after helping his escape. Jim did not DARE take the stand and clear her of the first charge, since she had known nothing of the escape till after it happened, and since the POW was working openly and going about in Detroit, she had not been "hiding" him. Nevertheless she was found "guilty" and is serving time now in Alderson, W. Va.

Knowing Joan, whom I helped get out of prison in California, knowing Jim, I discounted instantly the immoral cohabitation smear against Joan. I suggested that her lawyer defend her on the grounds that the U. S. A. did not enter the court with clean hands. The U. S. Army is violating the Geneva Convention that covers treatment of prisoners of war.

In the first instance, Jim committed no crime in helping the POW escape, because he was **NOT a legal prisoner of the U. S. A.** but of Great Britain, held in the U. S. A. camp in violation of the Geneva Convention which stipulates that **each power is responsible for its own prisoners.**

Second, the U. S. is **trading in slave labor,** returning to the dark ages and the social conditions of Soviet and Nazi slavery, in violation of our own Constitution as well as the Geneva Convention.

The court and the jury found Jim and Joan guilty and sentenced them to four years. Now I am appealing for funds to carry on in Federal Court. We yet need $1,500. I have mailed collections to the attorney as money came in, but we are way behind in agreed payments.

We must push the case, even to the U. S. Supreme Court, because **this is our opportunity to get a ruling** on the crimes of F. D. R. and Truman, who agreed to **re-introduction of SLAVERY in Europe** to please Stalin and France. We cannot afford to pay taxes and support a government that introduces SLAVERY under the guise of "Four Freedoms everywhere in the world". Since neither FDR, nor Truman have under our constitution and international treaties the **legal authority to force SLAVERY upon Europe,** this case will bring the issue before the U. S. Supreme Court. There is no better way to expose our own war criminals in high places. As Americans we are sworn to defend our Constitution and the laws, as well as treaties made under it, against **all enemies whomsoever,** in this case the U. S. Army under unlawful orders by its Command-in-Chief.

Sincerely, KOSTI.

Dear Mr. Bowles:

Enclosed is Bank M. O. for $50.

I have had a nervous breakdown with complications. For a while it was impossible for me to do any work whatever, but I am recovering.

Since my newspaper is a one-man enterprise, I was barely able to attend to its regular issuance and had to drop all other activities. You know perhaps that in all drives for funds it takes perpetual push. My inability to follow up, together with the fact that Income Tax has depleted the purses of most kind-hearted people, as well as the Red Cross Drive, the Cancer Drive and now the United Jewish Relief Fund to which many Gentiles are forced to contribute if they want to stay in business, created a lull in my remittances to you.

What happened to the March 31 session of the Appellate Court where you were to petition for release on bail? Sincerely,
C. LEON de ARYAN.

Mayor Exposes Red Cross Racket

TEXAS CITY,—Mayor J. C. Trahan of explosion-stricken Texas City told an American Red Cross official at the close of a conference here that "the real relief that has been given to the people of Texas City has not come from the Red Cross."

The Mayor, who had called on Gerald Wesselius of St. Louis, director of local relief activities for the Red Cross, said, "You people have done a lot of work in answering telegrams, but when it comes to the real relief that has been given to the people of Texas City, it has not come from the Red Cross."

The conference took place as rescue workers toiled through mountains of debris in their search for the still uncounted dead. Throughout the day funeral services were being conducted in the area.

CLAIMS AID DENIED

Mayor Trahan told Wesselius at the start of the meeting today that **"too many people are coming up to the City Hall to tell us they have appealed to the Red Cross for aid and that help has been denied them."**

SAYS PROMISE UNKEPT

Mayor Trahan also complained that the Red Cross had promised to provide transportation for 1000 homeless residents of Texas City who are now housed at Camp Wallace, 12 miles away. He said the promise had not been kept. Wesselius said that the Red Cross had provided a station wagon and some cars.

A new "scientific experiment" revealing that fomenters of race-hatred are mentally dangerous was recently completed at the University of California by Doctors **E. Frenkel-Brunswik** and **R. Several important conclusions have been drawn from these experiments: Firstly, that race haters are mental cases with criminal tendencies; and secondly, that any normal person who allows himself to slip into fascist thinking and talking is heading straight for serious mental trouble.—B'nai B'rith Messenger, Los Angeles.

New Yorkers Arrest Birkhead and Riesel for Criminal Libel

Notorious Hate Spreaders Are Tried for Libels of Ex-Alderman Fairchild and Egyptian Representative Hussein

NEW YORK, April 17 (Special)—Magistrate Ramsgate of a lower East Side court, 301 Mott St., concluded two days of hearings in the case of the People of the State of New York vs. Victor Riesel, Jewish reporter and labor editor of the N. Y. Post, on the charge of criminally libelling Ahmed Hussein, of Cairo, who is here as a protagonist for the cause of Egyptian independence.

Mr. Hussein swore out the warrant against Riesel, following the latter's viciously false attack upon the Egyptian for having spoken at a meeting in the Empire Hotel, at which Kurt Mertig, Ernest Elmhurst and other nationalists happened to be speakers, on the general topic of "Monetary Reform".

The brilliant young attorney, Hallam Richardson of Brooklyn and Manhattan, Harvard graduate and the son of a famous Methodist bishop, was retained to and did a fine job of directing the prosecution.

Riesel did not attend the meeting in question, but three days later in the N. Y. "Post" published a hearsay account, in which he charged that Hussein had denounced "Jews" in general and that he was conducting a pro-Arab and violently Anti-Semitic campaign.

Attorney Richardson proved by numerous witnesses, including Mrs. Cox, chairman of the meeting, and Gordon Hall, ex-GI with a fine battle record overseas and a writer for "Think Weekly", that Riesel's story was a lie out of the whole cloth; that Mr. Hussein had not mentioned or referred to any Jew, Jews or the Jewish or Palestinian questions.

Hussein—a handsome representative of the "Young Egypt" movement—had made calm and cultured, but spirited, speeches in behalf of Egyptian freedom, and had not even denounced the British. He had on all occasions refused to discuss the Palestine subject, when questioned by the audience or reporters.

Among witnesses summoned by Riesel was Ernest Elmhurst, by whom Riesel hoped to smear Hussein as having spoken on the same platform with an "alleged seditionist" and "convicted Anti-Semite". He endeavored, without success, to summon another ex-defendant.

But Riesel's attorney decided to introduce no evidence, at this time. The magistrate's hearing was only preliminary. He can dismiss the charge, or he can bind the defendant over for trial in special sessions.

Briefs may be filed until the 26th and a decision is expected about April 30th.

FAIRCHILD STRIKES BACK

In the arrest of L. M. Birkhead, the notorious head of the Friends of Democracy and bitter defamer of all Anti-Newdealers and Anti-Communists, charged with libel of Ex-Alderman Lambert Fairchild, Republican patriot and unsullied citizen of high reputation, evidence is seen of a "turning of the worm" and an intention to strike back at the vermin who have so long been slandering with impunity.

Magistrate Peter M. Horn "reserved decision" until April 29, after three days' hearing in the preliminary trial of Birkhead for having listed Fairchild as an "anti-semite" in his "Friends of Democracy's Battle", (a notorious hate sheet).

Despite the fact, in both these trials, the prosecution put the Indian sign on the defendants, conviction is unlikely, since the "behind-the-scenes pressure" cannot be resisted by political judges.

With a jury trial, some semblance of justice might be obtained.

NEW YORK,—Contracts amounting to more than $100,000,000 have been awarded to five American engineering companies which will construct the world's largest pipeline, in diameter and capacity, from the oil fields of Saudi-Arabia to the Mediterranean, Clifton Daniel, New York Times correspondent, reports from Cairo. Material for the pipeline, which will be 30 inches in diameter and 1,000 miles long, is already being assembled and a construction organization has been established for the pipeline and another is being created for the execution of a public works program for the Saudi-Arabian Government, financed by American money.

Fire-Oracle and Warless-World

Chats with Fredric on Mazda-Yasna

"Daddy," asked Fred. "You have expressed quite an opposition to Emanuel Bachman's way of faking the Candle-Mass Oracle. But could you do better?"

"Certainly, once I undertook the office. But it is not an easy job considering the way we are brought up. It takes marvelous training and concentration. Of course, I have most of it, but to apply it particularly to the Fire-Oracle is another thing again."

"What is there involved that makes it so difficult or unusual, considering the way we are brought up?"

"It takes absolute devotion. You have to be SINGLE-minded. And not merely single-minded, but single-hearted as well. All of your being must flow into the task **and go up in FLAMES** until you and the FIRE are as one being. You know the feeling you have when driving a car and having it under perfect control. You and the car are as one. Same as riding a good horse. There is instant response and reaction. Have you seen old-time Morse code railroad telegraphers? They read the clatter and automatically their fingers clatter back in reply. That's how it must be to **read the fire-oracle.** Only there is a good deal more than that involved. Of course, I have not this automatic accomplishment, that comes with practice, but I have the other elements which are even more essential and which Emanuel will not have in a hundred years: **COMPLETE spiritual devotion.** Emanuel is a materialist. He is Jewish. His physique even shows he is hog-jowelled and he hogs the authority Henry was to exercise, according to Dr. Hanish's dream of what would be after Hanish died. Because Sorge is a sap, Emanuel, instead of helping him to snap out of it, **keeps him a sap** and like all wily Jews takes advantage of him to make himself dictator of the remnants of the Mazdaznan movement. No white man will accept it."

"Daddy, please, let's stay with the subject itself. What does it take to read the Fire-Oracle?"

"It can be done two ways. One, is the mediumistic way where you don't know what it says and means, but throw your etheric organism into complete tune-in with the JOB before you. Then, by auto-suggestion, your body reflects properly, the way the body of the telegraphers registers the clatter and translates it into words and sentences **automatically.** The other way, is the INTELLIGENT collaboration. That means, you reach out into **divine realms and SEE** with your own intelligence what is **coming to humanity** or to the particular individual asking the oracle, and you throw his marked envelope to the corresponding candle which automatically confirms your choice by a flicker. The fire and your thought synchronize."

"What do you mean, the candle confirms your choice. What does it do?"

"It speaks to you in cuneiform alphabet, the way the Morse clatter speaks to the telegrapher. Now whether you know the flame alphabet or not, when you are divinely in rapport, consciously seeing what is coming, **the language of the fire is as plain to you as reading out of a book.** It's the synchronization of Thought and fire-flickers that works the same way as when mother teaches baby how to talk. You hear her sounds and **Catch on to her Thought,** that's how you learn your mother's tongue. Tongues of fire speak to you the same way."

"Have you ever done it, I mean, read a fire-oracle?"

"No, Fred, I never have. I have done other things that are much harder, so if it ever fell to my lot to officiate I'd soon catch on."

"What are the harder things you did?"

"I issued THE BROOM in war-time **denouncing the war criminals in the U. S. A.** That is much harder than reading the fire-oracle. Dr. Hanish did not dare do it. He used the oriental methods of double-talk, my job was to come out and let my language be **Aye, Aye and Nay, Nay,** so that there could be no doubt and no equivocation as to where I stood and why. Exactly the same elements are involved in reading the fire-oracle as are in issuing THE BROOM. At the fire-oracle you extend your consciousness to encompass all entities and subjects involved. You are **as if you were they.** Then, naturally, it comes to you what they propose to do. And you jot down what's coming.

"When you edit THE BROOM you have to do the very same thing. You have to look into the mouves and methods of the actors in the world. Then you comment. Dr. Hanish had been ordered **not to expose himself unduly to persecution in time of war.** He had a crippled heart and his mind, then, would have played him tricks. **He could not have FINISHED successfully.** So it was decided that he confine himself to teaching the philosophy and methods of the Zend-Aryan doctrines, which he did. But **THEY** were not that easy on me. **THEY** ordered me to train myself to come out openly and **all along the line AGAINST WAR** and hold out **ESPECIALLY** during war-time, that I may learn to **overcome the PSYCHIC strain** and pressure to which the mass of the people yield when they reneg on God and obey the murderers to carry out the diabolic plans. So Dr. Hanish and I were at logger-heads from the start. He, naturally, wanted to be the leading prima donna, while I detested the double-talk and did all my opposition work openly and recklessly. That endangered his position, too, because the hornets I stirred up went after him, and he was not in a position to withstand the onslaught."

"Is that why Henry Sorge did not register as a Conscientious Objector but became a lackey and chambermaid for cattle during the war to be classed as an **essential agricultural worker?**"

"Yes, Fred. Dr. Hanish used evasive measures and taught Sorge and Bachman to do it, too. I met the enemy head-on and taught you boys to come out all along the line against war and never mind the consequences. If God **rules supreme** we MUST find contact with that **supreme power** and bask in its protection. And we did. THE BROOM survived the ordeal. You boys did not serve the war-makers. That's what the goal of Zend-Aryan civilization is: to come out openly, in the FAITH in God's **supreme power and CHALLENGE the murderers to do their damndest. Jesus did it, and survived."**

My dear Friend:

Hail to you — lots of Joy & Peace to your Bones & Abode.

Just read THE BROOM and am so happy that you have been benefitted by the Tox-Eliminator. Can you give me any further details regarding same. We are all happy here — had our Gathering yesterday.

Lots of Peace and Joy and Vitality unto your Betterment.

Sincerely and Lovingly,
HOOPER MALLET

* * * *

Dear Daddy Hooper:

Be Happy and of Good Cheer!

Ferne showed me your letter and we decided to publish it with my reply, since it is of more than personal interest.

The Tox-Eliminator is a complicated device which is now used by progressive Physio-Therapists, an improvement on the older devices for colonic flushings. I did not investigate who manufactures it, it must be expensive and not economic for individual cases. You have to install it as one installs complicated bath fixtures, not a mere rubber tube with a water bag, which we old-timers used to have for high flushings, which even in those days was quite an innovation.

The apparatus is connected with hot and cold water, as well as Ozon. Thru a system of tubing and valves it can be used to flush as well as to **induce the colonic muscles to work normally** so that they draw in the water and expell it, thus, becoming alive again after degeneration. This, in turn, brings the colon back into its natural position in the abdominal cavity and thereby helps to replace adjoining organs into their proper place, so that the strain on the heart is relieved.

When you are in Los Angeles, I would advise you to call on Dr. Edwyn E. Melby, at 3023 W. Sixth St., and see for yourself.

You know the best machine is no better than its operator. Many drive expensive cars and kill people. Melby is an old fellow who is still young, who was to die of tuberculosis, came to California and licked the disease. He, then, used the same regime to teach others how to rejuvenate themselves. Reading THE BROOM he realized our kinship and invited me to become acquainted. When I had recently a nervous breakdown and needed to be restored to working order in a hurry I remembered him and he did the necessary mechanical job without which my body could not have righted itself.

Many must be using the Tox-Eliminator as Physio-Therapists, but Melby does it from a spiritual principle of service, not of profit. That makes a great difference. He is a vegetarian and like all of us, being young in heart, he is eagerly learning and progressing by experience and ingenuity. Dr. Hanish would be delighted to note how, what in his day was declared by the U. S. District Court in Chicago to be "immoral" in the application of INNER STUDIES, is now recognized today as a **regenerative principle thru CLEANLINESS** and internal exercise.

We who have studied Health & Breath and have dedicated ourselves to represent the THOUGHT of Mazda, naturally, recognize immediately our own kind who are breaking thru the crust of old superstition in materia medica and are finding natural means of **rejuvenation** that we may fully express the original Image and Likeness of our Creator.

Have been in San Francisco at various times recently but could not arrange my short stays there to coincide with one of your Mazdaznan meetings, otherwise I would have dropped in to see you. I miss very much the company of my kind and the service expressed in our gatherings.

With Love,
COUNT KOSTI.

Ink Wells in the Stomach

By HOWARD B. BISHOP, B. S. C.

Everyone knows how important it is to have good gasoline for the automobile, free from corrosive acid and tar.

Just as the carburetor mixes the right amount of air and gasoline to give the engine the maximum power, so the stomach mixes the food with the correct amount of digestive fluids to supply the blood with fuel and that can be oxidized to produce heat, power and electricity in the body. Statistics prove that many of the 140,000,000 stomachs of the American people are not functioning as they should because there is a consumption of 41,000,000 pounds of medicine per year, largely due to indigestion and constipation.

PREVENTION

Just as the automotive engineers learned the need for the proper gasoline to cut down repair bills so you, as a human engineer, need to learn a few simple facts about food and the chemical reactions that take place in the stomach if you want to keep well. It is far better to prevent indigestion and constipation than it is to take pills and drugs to try to cure it.

IRON IN FOODS

One of the most essential parts of the daily intake is the 10 milligrams of iron that needs to be present in food in the ferrous forms. This form of iron is soluble in water while the oxidized ferric iron is insoluble. This is one reason why water for cooking should always be boiled to expel the oxygen before adding cereal or vegetables.

A TEST

Recently a lady was shown how ferrous sulphate, dissolved in water and added to tea or diluted coffee, made a jet black solution. It was explained to her that this was due to the tannic acid in the tea and coffee combining with the iron to form ferrous tannate, a form of iron unsuitable for human consumption, and how the drinking of tea and coffee interfered with the possibility of getting the full amount of iron from the food. It was further explained that ink is made by the combination of tannic and ferrous iron. About a month afterward, the lady remarked: "I haven't touched a drop of tea since you showed me that experiment. I don't want to make an ink well out of my stomach."

CONCLUSION

Since tannic acid has the property of hardening hides to form leather, it is easy to see the deleterious action of hot tea and coffee containing tannic acid upon the delicate lining of the stomach when taken day after day and year after year.

If you are drinking tea or coffee, you owe it to yourself to perform this experiment in your own cup to see if what you are using reacts like the above.—Nature's Path.

Maximilian St. George, eminent attorney, author, and crusader in Chicago, was denied entrance to his office on LaSalle street recently. Reason given was because he is the attorney for Gerald L. K. Smith, and the management feared Communist Jewish picket lines. It was necessary for Mr. St. George to go to court to get into his own office. It is reliably reported that the same organization of Jewish terrorists which operates in Palestine has an operating headquarters in Chicago.

OUR GROUNDHOG WORLD

By Geo. Cartwright, Modesto, Calif.

ATOMIC UNUCHS

It is reported from London: **"Atomic energy workers** at a research station in northwest England **are becoming sterile and losing all sexual desires, a spokesman for the Chemical Workers Union charged officially."**

It might be worse. With the housing shortage landlords will give atomic plant workers preference as they will not clutter the place up with children.

BUILDERS, ATTENTION

Mr. J. Rupert Mason reminds us of importance to building trades of tax free buildings, stating:

"The N. Y. Legislature after World War I, allowed N. Y. City to exempt from city ad valorem taxes certain types of new buildings for a term of years. New construction was stimulated and the housing shortage ameliorated without arbitrary or bureaucratic administration. Other states have enacted laws embodying the same tax exemption principle, with marked success. The governor of N. J. again recently urged this policy of his legislature . . .

"Copenhagen, Denmark; Sydney, Australia; Wellington, New Zealand, and Johannesburg, South Africa, are a few of many cities which have not taxed buildings and Pittsburgh long has been allowed to grant 50% tax abatement to buildings in relation to the direct ad valorem tax on sites, and now is asking the legislature to allow 100% tax exemption to buildings."

BUSINESS BUZZARDS SCREAM

Business Week, one of the key industrial publications in the country, led its March 22nd issue with a story headed: "NEW DIPLOMACY, NEW BUSINESS; **U. S. Drive to Stop Communism Abroad Means Heavy Financial Outlays for Bases, Relief and Reconstruction. But in Return, American Business is Bound to Get New Markets Abroad."** —In Fact, 4-7-1947.

N. B. Are war empoverished nations abroad so wealthy they can buy American products, price inflated with taxes, the cost of two world wars, to the point they cannot be sold at home? That's economic asininity.

CHALLENGE TO MUNDT

Rep. Mundt has read into the Congressional Record a series of old lies and libels against IN FACT picked up from the Hearst and Howard newspapers and the Chicago Tribune. Mundt also added outrageous lies of his own. He is protected by Congressional immunity, and cannot be sued for libel. We challenge Mundt to repeat the same falsehoods outside of Congress. —In Fact.

CONSCRIPTION SUGAR COATED

Newspapers are printing propaganda that, under the proposed conscription system, **boys would not really be in the army. No sir! They would merely be in a special uniformed organization devoted to giving them physical, mental, moral — and incidentally military "training".** —Labor.

N. B. That one reminds us, after the Spanish-American War it was stated: "While the American soldier was civilizing the Filipino the Filipino maiden was syphilizing the American soldier."

Is It Insanity to Criticize Alien-Minded?

NATIONAL DEFENSE, Arcadia, California

WAKE UP AMERICANS

Magazines describe **atrocities** in mental hospitals. The **"controlled"** press seldom attacks the **"psychiatrists"** who could, if they would, stop America's **costly insanity racket.** Victims of subversive psychiatry load unbelievable expense on the American taxpayer. Cost in human agony can never be measured.

What forces block exposure of this Railroad to Hell? It is obviously part of a deeper plot **to wreck** the finances—to destroy the minds and Souls of Americans. **The American Hebrew** of March 1st, 1946, states:

"We must fill our jails with anti-Semitic gangsters, we must fill our insane asylums with anti-Semitic lunatics."

This **threat** of "insane asylums" accompanies the drive of psychiatrists to swamp our courts with juries for Star Chamber (kangaroo court) hearings controlled by the "mind doctors" (Head-Hunters!) The "controlled" press hammers that: America has only four thousand psychiatrists to "care for" ten million American "crazy?" people. The Truman-dominated National Mental Health Foundation, Inc., uses these figures to urge **more public money** for training psychiatrists and for building more "mental hospitals!" into which millions more of our fellow Americans can be kidnapped, railroaded, buried alive, and (mentally) tortured out of their wits.

We have only the dubious word of profit seeking psychiatrists that over ten million fellow Americans are "crazy." **The American Hebrew** above quoted seems too eager to "fill our insane asylums with anti-Semitic lunatics." Don't laugh off this DANGER. Write today to: The Federation of Jewish Philanthropies of New York, 71 West 47th St., New York 19, N. Y., and ask for their **free** booklet, "Psychiatry Comes of Age". This blueprints the vicious program.

ATOM WORKERS SUFFER DEBILITY

LONDON,—Atomic energy workers at a research station in the northwest of England are becoming sterile and losing all sexual desires, a spokesman for the Chemical Workers Union charged officially.

Atom scientists and industrial medical authorities said they were "concerned" about the charge.

Although they thought the statements were exaggerated they agreed that a full investigation should be made.

The spokesman was Bob Edwards, assistant general secretary of the union.

He said that more than 20 of the 250 men working in the station were affected. In addition to suffering from sexual debility, he said, the men complained of lassitude, skin rashes and unusual drowsiness.

NATIONAL F. E. P. C. BILL

LOS ANGELES,—Passage of fair employment practices legislation is nearer in the 80th Congress than it ever has been before, A. Phillip Randolph, president of the International Union of Sleeping Car Porters (AFL), said.

Speaking at a luncheon meeting here sponsored by the Central Labor Council's Labor Committee to Combat Intolerance, Randolph urged public support of FEPC bills in Congress.

Randolph said he sensed "a growth of intolerance and bigotry in America" which such legislation, he believed, will help to curb.

THE BROOM vs. 3 DAILIES

Defeat of the Cedar Street proposition poses more than one puzzle for people who take some thoughtful interest in the future of San Diego.

Before it was put on the ballot, the Cedar Street proposal had been three years in going through regular channels. In this normal course, it was finally found satisfactory.

It was approved by the Planning Engineer, the City Planning Commission, the City Manager, the Mayor and City Council. Once on the ballot, it was indorsed by all three of the city's daily newspapers. Organized labor and the Chamber of Commerce, representing two very different viewpoints, were in agreement on this project.—San Diego Daily Journal.

The answer is self-evident: THE BROOM advised to vote "NO".

Who Sent Letter on "Heidelberg Rector"?

Dear Sir:

Under heading "Why Was Heidelberg Rector Suicide?" of March 24 issue it is stated by one writing that cigarets are desired.

A lady that I let read THE BROOM saw that article and has given me $5 to send you that you send that person a carton of cigarets and you keep the balance to use as you desire.

I hope you may be able to comply with this request. Sincerely, O. T.

* * * *

Dear Sir:

Ten minutes ago I received your good letter informing me that a man sent you money for one carton of cigarets to be sent to Germany, as a result of "Why was Heidelberg Rector Suicide?".

I did not send that letter, nor do I know anything about it, but I am pleased someone is regretting the cruelty done to someone else. To my brother's family, who were ejected from their beautiful home and are living in a one-room hut, altho my brother owns six other houses, used for the boarding school, occupied by the most destructive "occupation group" imaginable, I send food and cigarets. I pay $1.70 to $1.75 a carton, 14c a lb. for postage.

The gentleman in question may think it best, and you may agree, that I send the carton of cigarets today with a few other things to the **Internment Camp 6 at Moosburg, Ob-Bayern.** It may simplify the matter if you keep the money and credit me with an additional six months subscription to THE BROOM.

The gentleman will hear directly from my brother. In my letter to him today, I shall enclose an International Coupon (9c) which pays for an answer to me; of course I'll forward the letter to you.

Without you and your precious BROOM the world would not have heard that one of the **eminent Thinkers** of Germany had to escape the torture and inhuman treatment at Moosburg by suicide.

A thousand good wishes, L. C.

God bless you.

Dear Kosti:

A small enclosure ($5) toward your good work, and happy to know that you are "fit" and can carry on with your service. I know Dr. Melby, personally, and too, can speak highly of him, am glad that you were able to make the contact. Easter week, we experienced the loss of a loved one, and I did not get a letter off to you, today, have time for only a line, but I do hope, soon, to write you and explain a little more clearly, just what I meant in expressing my desire to give my entire time to serving humanity. I have much yet, to grow in Spiritual Understanding, and putting it into practice, but, I am slowly growing into a New Birth and I know that somehow I shall meet the test somewhere along the journey.

All for now, and blessings to you, and many of them. Most sincerely, J. M. S.

General George Patton may have been murdered. A special report, so hot that only one paper in the entire U. S. A. published it, reads as follows: "The family of the late General George Patton has in its possession the wartime diary of the colorful leader— nine typewritten volumes loaded with dynamite so explosive that only an expurgated edition can be printed until many of his big brass colleagues in Allied ranks have passed to their reward—or punishment."

Warning To Co-ops. — "Certain business lobbies" who are determined to tax cooperatives out of existence may soon center their attacks on America's 9,000 credit unions, Rep. The credit co-ops have aroused the enmity of greedy special interests because "they have demonstrated that plain, ordinary persons can organize and successfully operate a credit institution with no failures," he said.—The Progressive.

The bill does not allow non-Catholics to receive religious training from clergymen of their own faith.

Drunken Murderers Rule the World

Idols of Moronic Mass Worship

Now the British Empire is in receivership or bankruptcy and Americans who suspected no danger to us in Greece learn that the United States alone must take the financial and undoubtedly the military responsibility for stopping the spread of the Russian Communist empire. This means war eventually if we do not accept the job. The American, Western civilization is no less opposed to the barbarian despotism and treachery of Moscow than to the identical horrors of Nazi Germany.

Why do we find ourselves in this fix? Let us look for the reasons in Elliott Roosevelt's commercialized record of the drunken orgies of the war gods in his book called **"As I Saw It".**

Elliott is discussing the Teheran conference. His descriptions of the drinking scenes at this and other meetings to which he was bidden by his father have been horrible in their unaffected revelation of sensuality. There is not a spiritual note anywhere of feeling for the millions of Americans whose lives and homes had been disrupted or ruined by this awful calamity. And Winston Churchill's futile defense of the Anglo-Saxon ideal of justice under law had been howled down with drunken roars at a state dinner.

Toward the end of this wild party, Stalin had proposed a toast—his umpteenth, as Elliott put it—to the day when they would slaughter at least 50,000 German "war criminals", without trial.

Churchill was on his feet. Elliott says he had stuck to his brandy, calls him "a redoubtable tippler" and "suspects" that his tongue was thicker "than usual". Elliott, himself, however, had lushed a load of vodka, including a full glass poured for him by Stalin, and white wine and champagne, and found himself thinking "through the champagne bubbles". He got to his feet "somewhat uncertainly" when his turn came. Harry Hopkins had excused himself, "the first American defection".

"Grimly — and by now a little hilariously, too, the rest of us stayed by our glasses."

"Any such attitude," Churchill cried, "is wholly contrary to our British sense of justice. The British people will never stand for such mass murder. No one, Nazi or no, shall be dealt with summarily before a firing squad, without proper legal trial."

Stalin "seemed hugely tickled" and Franklin D. Roosevelt, whose drinks are not noted, although Churchill's are, wittily proposed, as a compromise, the execution of 49,500. And so the fun went on behind the cordons of barbarian guards and even Elliott himself, uncertain on his feet, was called upon to give his opinion. That was how far gone they were.

This was the atmosphere in which the decision was made to deliver the Danube, the Balkans and now undoubtedly Greece and Turkey, and eventually all of Christian Europe down to Gibraltar, to a despotism which President Roosevelt himself, only three years earlier, had condemned equally with Adolf Hitler's. These toss-pots changed the world.—Westbrook Pegler.
